Related subject: Ward boundaries for bloxwich east

Given the current size of the ward we are currently approximately 1000 voters short for the optimal size, my proposal would be remove Irvine road, nursery road, somerfield road, reeves street, Stuart street, stoke street (previously in bloxwich west) then to encompass Henley close and the new wyrley view estate at gosscote lane that would come from the current blakenall ward and to add also the A34 corridor from the junction of bell lane to its junction of turnberry estate, thus adding Stafford road, dukes grove, Lydford road, thurlstone road, beech wood close and enderley drive all currently part of bloxwich west, there is a natural boundary between the wards being the large greenspace of king George 5th park and no link roads between Stafford road and broad lane, taking current numbers into account this would create an optimal voter number in all wards.
