## Comment text:

**Related subject:** Crawcrook - part of the Crawcrook, Greenside and Clara Vale ward

It will be run by Labour so I don't see any choices or changes. I don't understand what I'm being asked to review. Is Crawcrook going to be moved to a different ward?

We always play 2nd fiddle to the centre of Gateshead when it comes to facilities and investments so unless that changes, things will continue as they are. We have, in the not too distant past, asked for more regulation regarding the loss of green space and fields but Gateshead Council allowed the housing developers to destroy ancient hedges, even though they were told to preserve them, in the contract, alter footpaths used for many, many years and allow them to be rerouted through a housing estate, something that the ROW rules do not allow. Much was done following a change to the agreed outcome of an enquiry which found in favour of the residents, but the change was not conveyed to the residents who had attended the enquiry or taken part in it, in any way. They make it almost impossible for us to hold community events by insisting on totally unnecessary and unavailable guarantees. Gateshead council do very little for for my area so changes to the boundaries will have minimal effect on me.
