**Organisation Name:** Frensham Parish Council (Representative of parish/town council)

## Comment text:

**Related subject:** Western Villages

RE: New electoral arrangements for Surrey County Council Draft Recommendations

Frensham Parish Council strongly objects to the proposed change as stated in section 132 in your report to change 'Western Villages' to 'Frensham, Elstead & Hindhead'. The name does not reflect the villages encompassed within the proposed remit and is not only misleading, but also discourteous to the unmentioned parishes and its residents.

The existing "Western Villages" are a well-established group who work collectively for certain initiatives such as highways maintenance and localism and has built a robust relationship with the appropriate authorities and as such we are recognised as a collective, and to change to a name that is not reflective or accurately represents the boundaries will be detrimental to years of work.

Therefore, we urge the boundary commission to note our concerns and reconsider the Western Villages as an accurate reflection to depict all parishes contained within.
