Related subject: South Darley Parish and Matlock West District Wards

I see little reason to change ward boundaries for Derbyshire County Council but I object most strongly about the inclusion of Oker and Snitterton in the Matlock West ward.

Oker (Oaker), is a natural part of South Darley Parish. My children were educated at south Darley school. I attend St. Mary's Church and I used the village hall and pubs for recreation. MY home is a smallholding and I am surrounded by larger farms. This is very much a rural area and has no affiliation to the urban area of Matlock. It is essential that our District Councillor has an understanding of our lifestyles which the councillors in Matlock do not have. Please reverse your decision to rob us of representation that appreciates the traditions of the past and understands our rural economy. I would like to point out that my wife and all three of my children agree with the case I have presented.
