Comment text:

Related subject: Guildford North

Referring to the proposed north Guildford boundaries. The inclusion of Jacob's Well into the north Guildford makes sense. There is a continuum of residential housing within this area that naturally links Jacob's well with north Guildford. Jacob's well is separated from the rest of Worplesdon by large areas of woodland and common land. There is also a social and cultural aspect that naturally connects Jacob's Well to north Guildford; with a natural interaction between these adjacent communities that does not happen with the rest of Worplesdon.
