## Comment text:

Sir

The re-configuration of Weston Green into the area Hinchley Wood and Long Ditton is not in the interests of those of us living in Weston Green. The area Weston Green and Thames Ditton has a long and historical connection with very strong local ties and affiliations to the community it serves. Forcing us to join an area that lies south of the Portsmouth Road is nonsense.

The people divising this change have no understanding of local community pride and commitments. How many of them live in this area? All local government change is driven by finance and profit for the authority.

My husband says "don't play with your train set".

All changes cost. What will it save and to what advantage?
