Comment text:

Dear Sirs,

I know I am not the only one to have been most concerned to hear about the proposals to change the boundary lines for Jacobs Well and to take us out of the Worplesdon division into North Guildford.

We moved to Jacobs Well over 50 years ago and at that time we recall the times that we were urged to speak out against any development on the slice of green belt separating us from Guildford urban sprawl. Jacobs Well is a village and as such has enjoyed being associated with other villages such as Worplesdon and Wood Street Village. Our County Councillors have understood the issues that concern us as a village. We have been well served by them over the years.

I would like to protest most strongly against the proposal to include us in the urban areas of Slyfield and Bellfields in Guildford. Please will you reconsider this so that we would not lose our voice as a village.

Thank you for considering this, [REDACTED] Sent from my iPad
