Comment text:

Dear Local Government Boundary Commission,

I am writing to raise my concern about arbitrary removal of Jacobs Well from Worplesdon division for our Surrey County Council elections.

Jacobs Well has always identified with the semi-rural Worplesdon villages rather than the more urban area of Bellfields and Slyfields.

Most importantly, Jacobs Well has been served by Worplesdon Parish Council and our present and past Parish Councillors and the County Councillors who have represented just Worplesdon. These representatives have supported Jacobs Well in many important issues like supported us against many proposals detrimental to the village, kept us informed of decisions made at Parish and County level and maintained the facilities/amenities within Jacobs Well.

On top of that, we have been paying the council tax which belongs to Worplesdon's band and it will make no sense to have such conflicting representation.

Therefore, in my view, Jacobs Well should remain in the voting boundary of Worsplesdon and NOT Bellfields/Slyfield as voting for a County Councillor who will be representing the interests of an entirely different area will not be able to serve Jacobs Well and its residents effectively.

Thank you

Yours sincerely,

[REDACTED]

Residents of Jacobs Well
