Related subject: Oxshott

The proposed changes to the boundaries of the village of Oxshott will be catastrophic for the community. To take away the historical village status and incorporate us into either Cobham or Claygate areas is madness, we are not divided bay line down the road we are a village. The 5000+ residents work together to retain this village life with local shops, pub, doctors etc, and there would be no advantage to us being divided up only contentious problems with responsibilities for road and other maintenance. Please please vote against this proposal.
