Related subject: Boundary Changes

I want to object to the proposed boundary changes as they affect the village of Oxshott. Currently Oxshott is predominantly within one ward (if that is the right word) - Hinchley Wood, Claygate and Oxshott. This gives a unified voice for what is clearly a single community with very specific community issues. The new proposals will split Oxshott between two wards. The population of Oxshott isn't huge so I cannot believe keeping it together would make much difference.

In addition the name of Oxshott disappears from the ward map which feels wrong.
