Comment text:

Sir

I wish to express my objection to the proposal to move Jacobs Well from the Worplesdon Division of our county council and into the Bellfields and Slyfields Division.

The character of Jacobs Well area is more aligned to Worplesdon with its smaller population ratio to land than it is to the more populated Bellfields and Slyfield.

I believe that the interests of the residents are therefore better reflected through decisions made using a more rural lens.

For example, we have less shops, schools, public houses and other facilities and our residents are more impacted by decisions such as regularity of grass cutting, maintenance of ponds etc. Worplesdon Borough council are much better set up to meet our specific needs.

I would therefore like you to lodge my objection.

Thank you

Best wishes
