## Comment text:

This boundary has been in place since 1100 AD - why would you want to change it?

The Ditton Division (of which I am part) is 4% off the ideal Surrey average - the proposals for a new division will be 11% below the average?

Weston Green and Thames Ditton Residents Association was formed in 1934 (second oldest in the country). We run an annual secret gardens (alternating each year) and Nature and Climate Festival (in its second year). We have always felt part of each other's village sharing theatre, shops, schools, community centre and library.

Surrey County Council did not propose any major change - so why is this being proposed.
