Comment text:

Dear Sirs

I object to the proposal by the Boundary Commission to redraw the boundary of Thames Ditton, Weston Green and Long Ditton.

Surrey County Council did not recommend any major changes in the Thames Ditton, Weston Green and Long Ditton area. No reason has been given why the changes proposed would be beneficial. The 3 main criteria the Boundary Commission considers electoral equality, community identity and interest and effective local government are not being met.

The current boundary is clear, easily identifiable and familiar to residents, most importantly it works.

One cannot but question whether this change is for political reasons (the strength of the Residents Associations) or a justification of the Boundary Commission's existence.

Yours faithfully
