Comment text:

Related subject: Thames Ditton/Long Ditton

I am completely against Long Ditton being separated from Thames Ditton and linked to Hinchley Wood. The Dittons have been linked for hundreds of years and have a close association. I see absolutely no good reason for separating them. They share recreational areas such as parks, woods etc, they have a shared history. My road is KT7 and is described by the post office as Thames Ditton but under the proposed changes it will be separated from Thames Ditton rather than straddling the Dittons.
