## Comment text:

**Related subject:** Oxshott

The current proposal to divide Oxshott in 2 using the A244 as the dividing line resemble centralised colonial era border drawing based on convenience and with no regard for the local community. Dividing Oxshott in two and erasing the name can only lead to highly suboptimal and uncoordinated decision making. Who is going to represent the interests of Oxshott? I strongly oppose this proposal and sincerely hope that common sense will prevent this proposal from being approved
