Related subject: Oxshott - proposed boundary changes

I live on the A244 in Oxshott and I strongly oppose the proposed boundary changes. I understand that Oxshott will be 'split in two', by using the A244 and arbitrarily drawing a line down this road. In my view, this would divide the community and result in a loss of community identity. This is very much a backward step. I am also very concerned about the potential lack of funding for the A244. There are a considerable number of issues relating to the A244, in terms of lighting, the footpath to the south of the village and speeding vehicles, not to mention the nighttime HGV issue, all of which could become lost 'in the system' as the A244 falls between the two new proposed boundaries. I also understand that the name 'Oxshott' may disappear- I find this unacceptable. Kind regards.
