Comment text:

Online form does not work !

Any change of boundary between Thames and Long Ditton will lead to more costly expenditure, upheaval and wasted administrative costs to fix a problem that does not exist in the Dittons. Does not meet boundary commission objectives.

We share scout groups, collaborate on issues affecting our communities, ditton fairs, pubs, use by Royal Mail of Thames Ditton for Long Ditton, scout groups, sports facilities and most importantly green belt considerations. Why change something that has been in existence since the Middle Ages and provides a community with a definable identity. Not a supporter of a split.
