Related subject: Proposed boundary changes affecting Oxshott

There is no justifiable reason for dividing this compact, harmonious village community of ca. 5,000 people down the A244 route through the centre just to meet some abstract numbers target. The core of a village is typically the pub and the church - but the Oxshott ones would be in different wards. Furthermore the Oxshott voter identity would be abolished. The proposals should be revised with boundary lines redrawn to, as a minimum, keep the core part of Oxshott in the same ward and the name retained.
