## Comment text:

**Related subject:** Division of Oxshott

I am writing to object to the recommendations of LGBCE to divide Oxshott village down the main road. There can be no justification for dividing our community and eradicating the name of our village. We have a thriving community with its own high street, schools, GPS and rail station and there seems no reason to spoil a village just to justify arithmetical requirements. I ask the council gives serious consideration to retaining the existing boundaries whereby Oxshott continues to be part of the division of Hinchley Wood Claygate and Oxshott.
