Related subject: Elmbridge - Long Ditton

OBJECTION - Having read the detail of what is being proposed, I am not at all convinced that in reality, there is any persuasive argument that Long Ditton and Thames Ditton should be separated. Not only are the two areas complementary & harmonious (at most, if not all levels of the criteria being discussed) and have been for a long time, but (and perhaps more importantly) neither actually seem better suited to the areas that it is proposed they are joined with instead. PLEASE KEEP THE DITTONS TOGETHER.
