Related subject: Polling district map

Having received information of the proposed re-organising of polling districts I would just like to ask why this is really necessary. My family and I have lived in Solihull for many years and we have been quite happy living within the parish of St Alphege the councillors have been very helpful over certain issues that have happened over the last few year. I therefore would like things to remain as they are and I would imagine most people would share this view.
