Related subject: Batley East

The whole review is very confusing as a member of the public/ward. There is far too much reading which doesn't set out objectives in a simplified manner to the lay person. The only information that stood out to me was the merging of Batley East and Dewsbury South. I don't agree with this proposal as Dewsbury is not part of Batley. All very confusing in terms of the number of Councilors as each ward has 3. Why change it? Has it been/is it a problem in terms of reducing the amount of Councilors? Why not reduce the amount of Councilors in smaller wards. Can't see many views from the public unless they are very much in the know, or if it affects the merging of wards, which it seems like most of the decisions have been made
