Related subject: Flockton

Flockton is in a strange position in kirklees being a Wakefield postcode but within kirklees boundaries. This causes problems for residents when it comes to education and health care, with limited access to local services that we are "out of catchment" for yet which are within shorter distances than kirklees equivalent services. We are definitely not Dewsbury! Kirkburton is a better fit but still not our locality really. A new area perhaps - Emley, Flockton, Grange Moor, Lepton?
