Comment text:

Related subject: Crosland Moor and Netherton

We feel that this area is randomly put together. Netherton pretty much joins onto Honley with housing. Most people in Netherton socialise and shop in Honley, Meltham and Holmfirth areas. Meltham is accessible by public transport whereas Crosland Moor isn't. There's no logical reason to put these places together. It would make much more sense to link Netherton to Honley or Meltham areas.
