Comment text:

I recently heard proposals or suggestions so I am definitely against any merger proposals to change the ward boundaries to include the areas of Pennywell and South Hylton. Firstly, I am opposed to the inclusion, and I am strongly in favour of the status quo, that it remains the same. This makes sense as we have already a close knit community and we share great facilities together, such as the Sandhill School, the medical center at Grindon, also a great community for young people in the R A F cadet facility all serving the Hastings Hill, Grindon, Thorny Close area, also what separates the two communities is the very busy A183 a very defining line between the two communities. As a resident of Hastings Hill for 48 years I have seen the community grow in strength together making things larger does not necessarily make the better, we have good second to none transport links serving the communities it's not the case with South Hylton and Pennywell. I'm sure the residents of Pennywell and South Hylton are very nice people but trying to access that side of the A183 is very difficult transport wise so I am against any proposals to merge the two [REDACTED]
