How on earth can you pair these two different estates up in the first place ?

I'm sick to death of politicians trying to merge or split communities up .

What you don't understand South Hylton is a different kettle of fish to Ford estate. The people , properties , life styles and thoughts .

There's enough trouble between the two sets of youths on opposite sides of the fence without some politician deciding this is thr best for labour , lib dems , conservatives or any body else .

So please leave the two communities alone for the sake of peace on the streets of South Hylton and Ford estate.

For e.g there was alot of fighting between youths just a few years ago because South Hylton kids came onto Ford estate " KING GEORGE'S PARK " .

Off road vehicles, drinking , arson , criminal damage and drugs were all involved .

People who gardens back on the the above park , had the garden fences burnt down and even a boarded up house was broken into and used as a toilet, drink , drugs and even underage sexual activities went on .

That's only one instance and believe me alot more goes on .
