Related subject: Trinity Ward

The proposal to divorce Trinity ward from the rest of of Stroud Town and pair it up with Bisley and Painswick in a new County Council division is absolutely preposterous! Makes no sense whatsoever, geographically, culturally, administratively. I strongly object to this proposal. Those of us living in Trinty Ward will be at a massive disadvantage compared to the rest of Stroud Town, having our representative torn between the needs of a large, very rural area and the urban Trinity ward. There are a number of important services and amenities in the ward that need to be managed in harmony with the rest of the town, and this split would make that unnecessarily complex. In short, it is a terrible idea that will not meet the needs of the ward or its residents.
