**Related subject:** Proposed changes to Trinity Ward

I disagree with the proposed changes to the Trinity Ward. I note that one of the aims of the re organisation is to -  
“Create boundaries that are appropriate, and reflect community ties and identities”

Removing Trinity Ward from its association with Stroud town and placing it in the same area as Bisley would seem to contradict this aim. The Trinity Ward has community ties and an identity linked to the town of Stroud. It does not have these links with the proposed new and predominantly rural area.

The review seems to be ignoring one of its primary aims.
