**Related subject:** Ward boundaries

I wish the entirety of Wentbridge to be in one ward. As we have now formed a Parish Meeting as a village, having been removed from Thorpe Audlin and Darrington's Parishes, it would be a further step to unite the village under one ward and enable us to work as one community for our needs. As we have historically been divided between two neighbouring village Parishes, Wentbridge has not been a priority in services, amenities and community campaigning for speed safety and as a result we have visibly fewer speed safety measures, signage and general village resources. As a community, we are working to build a Parish Meeting committee to prioritise the needs of the residents, as they see them, and would appreciate the clarity of having one set of District Councillors to invite to meetings and support our committee aims.
