Related subject: Hinchley Wood

Hi there,

I submitted a response a moment ago. I impulsively sent something without reading the proposal throughly. Having a newborn will make you do that! Apologies.

After reading the updated proposal it's an improvement over the previous draft and simpler. However, I'm still uncomfortable with Hinchley Wood being split off from Esher and Claygate. Where I live it's pretty much Claygate. We're connected by telegraph hill. I'd appreciate if alternatives could be done to include Hinchley Wood with Claygate and Esher.

I partly understand part of this boundary change is for voting and councillors. My concern is that we'll have less say in Hinchley wood for local issues and I think our community needs are closer connected to Esher and Claygate, rather than East Molesey and The Dittons. Also, I'm concerned of the potential for setting future precedents of other boundary changes.

I still might discuss this south my councillor.

Regards,

Liam
