## Comment text:

**Related subject:** Oxshott within Elmbridge

Revised split of Oxshott into two different divisional boundaries known as South and North is still not acceptable. The village is not large, but as individuals it is joined up and should be considered as one area and included in one divisional boundary. This is required to assist the village when it needs to be heard regarding any issues eg road usage (potholes, speeding, lorries in the night), pollution, multiple redevelopment planning applications..
