## Comment text:

**Related subject:** Oxshott

- a. This proposal would create an artificial boundary in Oxshott, which is a distinct village. The A243 is not seen by residents as a barrier between each side.
- b. The proposal would remove the name of Oxshott from ward, which would appear to smack of taxation (very high in Oxshott), without representation.
- c. Residents in Oxshott generally would not travel to, or use the facilities in Runnymede/Staines. They go to Cobham, Surrey or Epsom. The same would be likely for residents in Runnymede & Staines who would have little natural need to travel to Oxshott, This would mean that the proposed ward would be merging two unfamiliar areas. Oxshott residents consider themselves closely linked with Esher and Cobham, not Runnymede.
