Name: [REDACTED]

Email: [REDACTED]

Postcode: [REDACTED]

Organisation Name: Our Community Works (community group) (Member of the public)

## Comment text:

**Related subject:** Kirklees

My concern is that although Kirklees Council have gained a reputation for being the worst council in the country and residents of Kirklees consider the council to be ineffective and unfit for purpose... you are considering increasing the area they control rather than reducing the area as common sense seems to suggest.

My community groups (over 2000 members) experience of Kirklees Council has been one of absolute disgust... someone high up in Council (we believe a local councillor) instructed employees to ignore all communication from myself and my group and this was confirmed by several of those employees. This led to the destruction of numerous community projects and removal of previously agreed projects. No reason has ever been given for this and even Freedom of Information Requests have been denied. Kirklees Council should not be able to act like this and in our eyes unfit for purpose.
