Related subject: drayton ward / steventon and hannay ward

Given the major increase in population / the large number of houses added in this area, the way the roads are laid out... and the ever present threat of the Thames Water mega mudflat (oops, reservoir),

In my opinion it would be better to split drayton ward by creating a new ward covering Milton and Milton Hill out of the Drayton ward and splitting Steventon and Hannay into two separate wards. That is, in this area two extra wards, two extra councillors
