Related subject: Bloxwich

Having seen the proposal for bloxwich east and west this was encouraging to even the boundary however I would have thought extending the bloxwich east boundary further to use Broad Lane as the boundary line to make future numbers more even as looking at the projection it will still be to low. Encompassing one side of bell lane, stampings way development, bealeys lane and one side of broad lane down to its junction with turnberry road would make the projections more aligned to what is required.
