Related subject: Penhill and Upper stratton/ CSN parish

Penhill is a unique area in Swindon, with a different identity and higher levels of deprivation compared to the rest of the town/ county/ region. the boundary of the current area covers 2 parishes and was generally set up to ensure 3 councilors elected in rotation which should not be necessary given the move to a whole council election. The area should have one to act as a representative for the whole estate.. If this is not possible the area has more in common with nearby Pinehurst which is in the same parish and has often the same needs and requirement
