Comment text:

Related subject: Merton Avenue

We have been placed in the boundary of Pinehurst and Gorse Hill which has a different demographic and always elect labour councillors. So our vote is pointless - we are in effect disenfranchised and we no longer vote in local elections. To make things worse we are no longer able to vote at the nearest election point at the end of our street but have to go to another location - a long walk for elderly people like ourselves so have to register for postal vote for the general election.

To my knowledge this only affects Merton Ave, Okus and Bradley Road..

Please can we be placed in Stratton where we belong.
