Comment text:

Related subject: Wards

We don't need a Walcot and Park North ward. They should fall under the Eldene and Park South ward as they are in that corridor of houses and associate with that ward.niys all one residential area with the main roads as boundaries.

OLD Walcot, on the opposite side of Queens Drive (also known as Walcot West) does not associate themselves with that ward or residential area. They fall under Swindon South/central as denominated by the main road and are a different class of suburb to the Walcot/Park North area Which is predominantly a council estate.
