## Comment text:

**Related subject:** Ryton, Barmoor

If you go ahead with the planned ward boundary change, I will be taking legal action. Myself and my Neighbours will spend all time and money necessary to appose this as it will impact our home prices, identity and completely change the community identity of our street. The fact that you have kept this very quiet until so close to the deadline will form a large part of my argument, followed by a market calculated compensation claim for the difference in average house price. In addition, I will be heavily canvassing all in the area to remove your party from control of the area as your actions have been a disgrace over the last 3 years. You have sold our village to the highest bidders to serve your own ends, as you are doing again to ease election admin. Shame on you.
