Related subject: Boundary changes for Ryton

The proposed boundary change does not take into consideration the historic significance of the area of Ryton that is to be moved into the crawcrook ward. A meeting was held on the 2nd of april of the residence of Fairfields, Reasby gardens and Barmoor, the reason for the last minute meeting was that until the 1st april no one knew about the changes that would affect our lives, and everyone there agreed that they lived and wanted to remain in ryton, our parish church would be in Ryton not crawcrook. Crawcrook is a place you pass through on the way to somewhere else Ryton is a place to live and socialize and is a place i chose to live in I can watch cricket from my window at ryton cricket club if the proposed changes come into effect it won't be my cricket club anymore. people from this area have invested a lot of time money and effort in Ryton only to be cast aside for the sake of a few votes
