**Related subject:** Victoria Ward

I would value a change in boundary.

I feel in Victoria ward we are not serviced by any of the councillors.

They know they will be re-elected. They have done the role for too long and are all at best tired or at worst indifferent and uninterested.

Democracy is not served well in Victoria ward and neither are the residents.

It should be noted all 3 are Labour, I support Labour and am a member of the Labour Party. This is not party political. It's about people doing what they are supposed to do.

I would value a shift in boundaries and new councillor selection to revitalise the borough as a whole
