## Comment text:

**Related subject:** Kidderminster

I understand that the Commission proposes to change the current Kidderminster Town Council wards from 6 ,each represented by 3 councillors, to 10 with varying numbers of councillors.

This is change is unnecessary and would make no sense to the electorate.

Furthermore, there has been no, or any, effective publicity about the proposed changes, to the extent that the affected Council was unaware of what is being proposed.

The current situation is that the Town Council wards are the same as those for the District Council, so the voters know which ward they are in and who to contact if there is a problem. It is an arrangement which works perfectly well.

It would create unnecessary complications during local elections when both District and Town Council elections are often co-incident.

I strongly urge the commission not to impose the proposals and leave things as they are. It works perfectly well as it is.
