Comment text:

I wish to add to the above review in respect of Clent Hills Division WCC.
This includes Hagley which is a large village or small town and is completely different to the rural area which makes up the remaining Division.
Hagley is intersected by the A456, A491 and A450 the busiest A roads in the county, has 2 large High schools, main doctors surgery, train station and other county pressures above those of the other small villages in the division.
I believe that this division should be split into two with Hagley as stand alone.
Or the Division should be a two person division.
