Comment text:

I have been informed by a neighbour that you are considering boundary changes.

Firstly let me start by saying I find it shocking that we have not been informed by yourselves to an extent that we are all aware of these proposals. Is this because you knew you would get negative feedback?

I have now found all information on the internet but what about all the people who have no access or do not use the internet? I know it says you can respond by post but if you've never received any leaflet etc how would you know where to write to? You would only find out when it's too late to have a say!

The local councils are saying they need more funding for local communities yet how much have you spent on this ? I consider this to be a waste of tax payers money.

These decisions are being made with no consideration for the residents.

These boundary changes will affect catchment areas for schools, house insurance, and more importantly property value, and all because some councillors will have more voters than others! How ridiculous

If you are so concerned about the electorate this should have been balloted by vote to all residents concerned.

We purchased our property to be a part of the Clent parish and enjoy the facilities in Belbroughton such as the doctor's surgery and the local community, and for the catchment area for the schools in Hagley.

I would request that Bell Heath and Bell End remain as part of Belbroughton as has been the case for hundreds of years (especially as Bell End was once part of the Bell Hall estate)

All this is being proposed by those with no vested interest in the community and will suffer no repercussions by their decisions, however for the

residents it is devastating.
