Related subject: Change from Belbroughton/Clent area to your proposed Woodvale

We have lived here for over 30 years and can't see what this change will do that would be of any benefit to us. Money could be better spent at this time. Our local neighbourhood is a rural community and absolutely nothing would be gained by transferring to 'Woodvale' as some of that is more an urban area which we are not. We have an affinity with our local rural area of Belbroughton where we use the local amenities and have our doctor's surgery whom we have been with since we moved here. Our allegiance and commitment is to Belbroughton and Clent and have no wish to change and can see no benefit in moving the boundary to Woodvale.
