**Related subject:** Belbroughton

I disagree with the new boundaries proposed as we have been in belbroughton for so long it feels wrong that we have to be shoved out when the new incoming people have priority over the current residents, especially as the schools and doctors that we currently have access too are better than those we would then have to use, I use everything in belbroughton as it's my community and I would have to travel further for facilities such as the doctors office and polling station
