## Comment text:

Very concerned about the changes to boundary planed. I took up residency in the area just over 4 years ago studying the area. Country aspect with a village walkable ie: Drs, Post Office, Public Houses and a Social Club. Feel that all this may change. Also the Councillor we have at the moment more than likely will change. Our Councillor is very reliable and would not relish a change. As an older resident over 70 feel for the younger residents who may be more greatly affected in future by any change. Is this really necessary ?
