**Related subject:** Gorse Green Lane

I am writing to record my responses to the provisional suggestions of revised boundaries that will affect the above areas.

I have lived on Gorse Green Lane for almost 30 years and in that time have had the opportunity to be involved in village life, use the local facilities in the village 5 mins away, and enjoy the surrounding area. It's a great community with good community spirit

I would like to add my objection to this proposal as I don't feel that this community has a connection to the Woodvale Division. Catshill is considerably removed from this locale.

The services I regularly use are Belbroughton/Hagley based for shops, health care and socialising. The local primary school hold events which I always support and it always has seemed a lovely local school for residents (even tho I haven't had reason to take advantage).

I sincerely hope that when you are considering your plans that the above can be added to other responses and that from these you can feel the full weight of people's dissatisfaction with the proposal.
