## Comment text:

Do not build 1000 new homes in Coulby Newham. Stop looking at the potential new income via council tax you may receive and look at how much work and money is needed before allowing it. It's bad enough when McDonalds is busy around the Parkway, imagine what is needed for an extra 1000 houses and the people they hold. At the moment, Coulby Newhams doctors are full, the schools are full and you want to add more people to this? So unless you are going to replicate the Parkway, a new doctors surgery, more new schools and transport links to accommodate this. It's a really short sighted approach. On top of this, wildlife in the area and forcing them out of their natural habitat. Walking the dog in the local area I've seen badgers, foxes, various birds, rabbits and deer. This will all be gone and you'll destroy the beauty of Coulby Newham. Plus the impact of more cars, more pollution, more traffic. Do not destroy an area people outside of Middlesbrough are shocked exists, as the view is Middlesbrough's an industrial wasteland with no beauty.
