Comment text:

Related subject: Marsh, Huddersfield

Before, the majority of Marsh was in the Greenhead ward. In the new proposals, the community of Marsh is carved up into separate wards. I think that it is important that the local Marsh community does not lose its identity and fall between several stools. Myself and my neighbours deserve better. Proper representation by councillors who know the area well and are happy to do their best for the local community as a whole. I think it will make applying for any funding for any initiatives to improve the Marsh area harder, with the separate wards saying 'Apply to the other ward(s) covering your area'.
